# ABOUT US

## “The secret in education lies in respecting the Student!”

**HAYAT** is an organization co-founded by two Educators which aims at building a better India by providing high quality Education to the budding XI and XII science students of our country. The vision of the organization is to improve the quality of Education in our country.

This vision derives itself from the belief that Education has the power to transform and change a person's life and hence the country's future. Our expertise lies in Science, Engg. and Medical entrance exam coaching and that's where we begin.

Times have changed and so has the meaning of Education. From ancient times when teaching was considered a sacred space, to today where it has been left just as a business. Most coaching classes follow what is called as the “Business Model”. However, keeping in mind our experiences both as students and as professors we have come up with what we call the “Student Model”. In this model the Student remains as the main focus in everything we do. Right from our teaching methodology to our administration and infrastructure, everything is decided keeping the student in mind.

We believe that the choice you, as a Parent make today at this crucial juncture of your child's life is what will determine his performance not just at the CBSE, ICSE, State boards and the entrances but for the rest of his career. These two years - Std. XI & XII, would set the foundation for all their future courses and thus it is important that they learn in the right way. As your child moves into this most crucial leg of his/her academic career, it is important for him/her to obtain the right guidance and mentorship. and this is what we at **HAYAT** provide our students. This is what our Student Model is all about.

**YOU ARE THE CREATOR OF YOUR OWN DESTINY**

**HAYAT**

To **IMPLEMENT** the student model

To **PROVIDE** the best teaching to the students

To **EDUCATE** future professionals who will shine
